Nathalie Picard (BETA – Université de Strasbourg)
Winfried Pohlmeier (Universität Konstanz)

PEGE, Amphi commun, Université de Strasbourg
61 Avenue de la Forêt-Noire - 67000 STRASBOURG

We are pleased to announce the program of the Doctoral Workshop on Applied Econometrics which takes place at Strasbourg, on June 27th and 28th, 2022. The aim of the workshop is to provide a stimulating environment where PhD students and young researchers can present their work and exchange with both young and more experienced researchers. We welcome contributions from all areas of econometrics.

Thanks to the financial support of the French-German University (UFA -DFU), we can refund transportation, meal and accommodation costs to all participants of the workshop.

The guest lecture is given by Winfried Pohlmeier on

Algorithmic Pretesting of Financial Risks
